

CARVER PUBLIC SCHOOLS
Special Education Department

MATH PLUS

Services special education and regular education students with math assessment scores below a given criteria.

Mission:

The goal of Math Plus is to provide targeted instruction in specific math skills, which have been determined through assessments to be areas of weakness for the student, in order to improve student success in math.

Components of the class may include:

- Assessments used to guide instruction
- MCAS prep
- Re-teaching
- Multi-modal instruction for varied learning styles
- Some classes co-taught by math teacher and special education teachers.
