

Students will be able to...

SOCIAL/EMOTIONAL

- Explore various feelings that most people experience, identifying personal sources of various feelings and how they are expressed, explore the differences between the intensity and duration of feelings, and recognize differences of feelings between self and others.
- Develop interpersonal skills for positive social interactions.
- Learn how to resolve problems in a variety of ways by brainstorming solutions.
- Continue to develop understanding of bullying and expand on strategies to respond effectively.
- Understand and acknowledge that they are responsible for their own behavior.

Students will be able to...

ACADEMIC

- Learn how to organize and schedule time necessary for completion of assignments.
- Become aware of effective listening of classroom instruction and ask questions in the classroom if necessary.
- Understand expectations of the middle school and the transition process. *(Grade 5 only)*

Students will be able to...

CAREER AND WORKPLACE READINESS

- Compare good work habits in school with positive workplace habits and cooperative learning.
