Your help is greatly appreciated!

UPCOMING PRESENTATIONS:

Disabilities Awareness Assembly

presented by the students in the POST program They are going to be talking about their own disabilities and how it has impacted their lives. But, more than that, they are going to be talking briefly about how their disability **doesn't** define them.

Please offer your support by getting the students to the auditorium as quickly as possible. We really believe that the students in the audience will be respectful, but if there are any problems, I would hope teachers could encourage them to be more respectful. The POST Program presented to the high school student body a few months ago and before that had never done anything like this before. We're hopeful that it will be just as impactful for the middle school students!
