Meeting Called to Order at 6:36 p.m.

- I. **Tools for Schools Resolution:** The committee reviewed the resolution of the Tools for Schools Program Implementation which states:

The Carver School Committee hereby resolves to implement the Tools for Schools program.

Tools for School is a program established by the Environmental Protection Agency (EPA) to help schools maintain a healthy school building environment. The program promotes health indoor air quality (IAQ) by identifying, correcting and preventing indoor air quality problems. It is well known that good IAQ contributes to a favorable learning environment for students, increases productivity of staff, and promotes a sense of well-being and comfort for school occupants.

The Carver School Administration will establish an Air Quality Committee for the Carver Elementary School comprised of teachers, a school nurse, custodians, and an administrator. Once established, the committee members will be able to educate staff, students and parents about the importance of good IAQ and the roles in ensuring a healthy and comfortable learning environment.
