

CARVER PUBLIC SCHOOLS

3 Carver Square Blvd., Carver, MA 02330

Application to Switch Learning Models

for the 2020-2021 School Year

If requesting a change in learning model, please complete this form for each child and submit to the Superintendent of Schools at the address or email above. One form must be submitted for each student.

Elementary Remote Learning:

Those students and families in grades K-5 who choose to remain remote will be placed on a remote learning plan. The remote learning plan will offer a K-5 curriculum and online learning that aligns with the Massachusetts curriculum frameworks. Students will be placed with a Carver Public Schools teacher who will implement the curriculum and support students while they are working remotely on a regular basis. The Carver Public Schools will also provide opportunities for students who select the option to stay remote to make connections with their peers and the school community.

Middle High Remote Learning:

Those students and families in grades 10-12 who choose to remain remote will be placed on the Edgenuity Learning Platform and supported by Carver Public School staff. Edgenuity offers a full suite of 6-12 curriculum and online learning solutions for schools and districts. In the Edgenuity platform all courses have embedded instruction videos, readings to support course content, learning activities and assessment to measure student progress. Students in grades 6-9 will have a combination of live instruction by a Carver Middle High School teacher and courses on the Edgenuity platform. The Carver Public Schools will also provide opportunities for students who select the option to stay remote to make connections with their peers and the school community.

MODEL SELECTION

I am requesting to change my student(s) from: IN-PERSON / HYBRID to REMOTE ONLY
 REMOTE ONLY to IN-PERSON
