## *Medications by Standing Order*

Carver Public Schools policy allows the school nurse to give some medications according to standing medication orders written by our school physician. These orders allow for the administration of acetaminophen, ibuprofen, Tums, or Benadryl by the licensed nurse with the prior consent of the student's parent/guardian.

Consent for these medications is part of the Online Returning Student Registration, which should be completed at the beginning of each school year. In addition to medication consent, emergency contacts and updated health information are also included in this online form. Please note, this process replaces the emergency contact cards used in prior years.

To update your child's health information, emergency contacts, and permissions, please go to your **parent** Aspen account and complete the Student Registration.

If you have any questions about this process or are unable to access your ASPEN account, please contact the MHS office at 508-866-6130.
