

FOOD SERVICES HYDROPONIC GROWER

The Carver Food service department is seeking a hydroponic grower that is highly organized, efficient, and punctual to manage our 6 Fork Farm hydroponic systems. The flex farm is a fully self-contained vertical hydroponic farming system. The food service hydroponic grower is responsible for the production, business and maintenance associated with operating the farm. The grower is also responsible for caring for plants throughout their development, including providing plants with the nutrient solutions they require to grow, protecting plants from pests, ensuring their environment allows for successful growth and providing basic maintenance to the plants. The grower is responsible for deciding when a plant is ready for harvesting.

Responsibilities

- Flex Farm set up
- Planting Seeds
- Transplanting
- Harvesting
- Water Maintenance
- Inventory management with supplies and grower toolkits
- Student engagement
- Daily cleaning
- Deep cleaning as needed
- Clean and store system for summer school closure
- Time required- 5 hours per week not including harvesting or cleaning
- Must be able to check on the systems during school vacations
- Create an account and utilize the Fork Farms Farmative website.
- Maintain a professional demeanor and appearance at all times

STIPEND: \$3500

If interested, please send letter of interest to: Theresa Vernazzaro, Director of Food Services, CARVER PUBLIC SCHOOLS
